

WINNER

OUTDOOR PROJECT

The addition of a new front fence with electronic gates, loop entrance with double carport and full landscaping have created an entirely fresh face to what once was a tired period home. At the rear, the extension of the family room and addition of a new double garage with studio, overlook the beautiful new pool and outdoor entertaining area. The fully tiled pool, frameless glass pool safety fence, Victorian ash lining board ceiling in the double carport, terracotta roofing, and wood-burning fireplace with wood box and adjacent barbecue, are among the features of this standout outdoor project. The judges described the final result as "very livable".

'At the rear is the extension of the family room and addition of a new double garage with studio'
